Art Unit: 1625

Claims 1-9 are pending in this application.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 1-9 are rejected under 35 U.S.C. 101 because Claims 1-11 are pending in this application. Under US patent practice, a use claim without setting forth the steps involved in the process is an improper definition of a process, under 35 U.S.C. See *Ex parte Dunki*, 153 USPQ 678 (Bd. App, 1967) and *Clin. Products v. Brenner*, 149 USPQ 475 (D.D.C., 1966). By deleting the claim, the rejection would be overcome.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not possible to ascertain the metes and bounds of the claims. Therefore, the claims are indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Dereu et al., US 4,730,053.

Art Unit: 1625

Dereu et al., disclose compounds on columns 1-5 and the examples, their composition and method of use for treating myocardial damage.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoshida et al., Chemical Abstract, 122 :71678, (Am. J. Physiol. (1994) Vol 267 (6, part 2), pg. H2347).

Hoshida et al., disclose benzoisoselenzalone and their composition for treating myocardial ischemia. See ISR of PCT/CN03/00475.

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Nattermann, CN 1243749A.

Nattermann, disclose benzoisoselenzalone and their composition for treating myocardial ischemia. See ISR of PCT/CN03/00475.

IDS

The two references listed on the ISR of PCT/CN03/00475 and the IDS filed 12/20/04, have not been received. A call to applicant's representative for the reference did not result in filing them. Applicant is required to submit the references in replying to this Office action.
